DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless—

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-7, 10-13 and 17-21 are rejected under 35 U.S.C. 102(b) as being anticipated by Beall.

Beall discloses a device for siphoning a liquid from a package 10; the device comprising a venturi 58/60/72 and suction assembly 34 with a supply conduit 68 and at least one suction channel 60/62; and a securing and opening means 40/42/54.

Allowable Subject Matter

3. Claims 8, 9 and 14-16 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Azpitarte Bolivar, Roberts, Peterson et al, and Strenger show various types of nozzle devices in dispensing apparatuses with venturi type aspirators.
